

## Find your WHY!

1. **THINK** about a job/career that interests you.
2. What training do you think you will need for your career choice?
3. After some research, what kind of training best fits your goals? Work experience? Some training? College degree?
4. What type of training/school environment will challenge you to grow the most academically and personally? Close to home? Away from home? Part-time/Full-time?
5. What pressures, barriers, or concerns do you have about going to college for specialized training or a degree program?

### Your Next STEPS:

- Start your year off right by talking with your school counselor about the year ahead. Make sure you are on track to graduate.
- Make a list of teachers, counselors, employers, and other adults you might ask to write letters of recommendation.
- Begin taking a more serious look at NEXT STEPS AFTER GRADUATION by researching your plans and asking questions.
- Talk with your counselor to help you apply to programs that best fit your WHY!
